

*Thank you for your interest in Compton Verney. We welcome proposals for projects and exhibitions of any art form that help to build the richness and diversity of our programme. Please bear in mind that we are typically fully programmed 2-3 years in advance and receive many more project proposals than we can accommodate. We review all proposals monthly and will be in touch once we have discussed your submission.*

Within this document is an outline of questions that must be completed in detail in order for us to assess your proposal to exhibit within our space. These will also be used to address your requirements and specifications so that our team can best consider how to showcase and/or develop your work. Please submit this form to [art@comptonverney.org.uk](mailto:art@comptonverney.org.uk)
